

Securabike, with over 20 years of industry experience, assists government departments as well as commercial clients with design support.

Experienced Securabike staff can offer advice selecting the appropriate products or simply assist in obtaining the maximum utilisation of available space that can be dedicated for bicycle parking. Securabike can also assist councils developing cycle paths in specifying and installing signage to assist cyclists.

The level of design services is normally determined by the project and can include:

- Site audits
- Surveys
- Reports and recommendations
- Custom made designs.

### Architectural Design Service

Leda is assisting architects across Australia with free design support with 'End-of-Journey Facilities' for cyclists.

With over 20 years industry experience our design engineers have a wealth of experience to assist architects by providing various options to best utilise the areas allocated for bicycle storage.

In utilising the space reserved for bicycle parking, Leda can assist with providing suitable options relating to:

- Bicycle rack options
- Compound or cage perimeter
- Access control and pedestrian gates
- Ancillary equipment such as "bike repair stations"
- Clothes lockers and storage.

Experience has shown that a combination of horizontal and vertical parking for bikes will achieve the best result.

Leda staff can also provide budgetary costings and of course our experienced installation staff can project manage and install the facility if required.

Proposed options to optimise bicycle storage in a 7000 x 3200 bicycle cage
